PROFILE

Final-year Computer Science undergraduate with hands-on experience building web and mobile applications using JavaScript, React, Node.js, and databases. Interested in practical problem-solving and creating clear, reliable user workflows.

EDUCATION

University of Vavuniya **2023-2027**
B.Sc. (Hons) Computer Science | Final year

TECHNICAL SKILLS

Languages: JavaScript, SQL, Python, Java, C, C++, PHP, MATLAB
Frontend: React, Next.js, React Native, Expo, HTML, CSS, Sass, Tailwind CSS
Backend & databases: Node.js, Express, REST APIs, PostgreSQL, MongoDB
Tools: Git, GitHub, VS Code, Postman, Laragon, Axure RP

PROJECTS

ShopFlow | Inventory and cash sales Sole developer
JavaScript, Next.js, React, Express, PostgreSQL | github.com/tniketha/ShopFlow

- Built a shop application to manage products and suppliers, receive stock, complete cash sales, and view sales history.
- Receiving a purchase increases stock; checkout checks availability, records the sale, and reduces stock while keeping the original product names and prices.

Smart Attendance | QR attendance application Sole developer
JavaScript, React Native, Expo, Express, MongoDB | github.com/tniketha/SmartAttendance

- Built student and lecturer workflows: lecturers start a module-based class and display a QR code; enrolled students scan it to record present or late attendance.
- Prevents duplicate check-ins, records missing students as absent when a class closes, and provides semester summaries, attendance history, and lecturer CSV exports.
